

## Install guide for Studio Mobile Demo

---

### Install with Mobile browser

1. Start you mobile browser (eg. Opera Mini)
2. Enter the following url: [www.corvinno.com/studiomobiledemo](http://www.corvinno.com/studiomobiledemo)
3. Find the download link ("Download Studio Mobile Demo")
4. Accept downloading the Demo
5. Start the Demo with opening studio\_mobile.swf

### Install with PC

6. Download studio\_mobile.swf to your PC  
Note: You can find the download link on [corvinno.com/studiomobiledemo](http://corvinno.com/studiomobiledemo)
7. Connect your mobile device to your PC
8. Run your device manager application (eg. Nokia PC Suite)
9. Install Flash Lite on your mobile device (skip this step if it is already installed)  
Note: Recently bought devices have pre installed Flash Lite plugin!

You can find the install packages on the [Adobe Flash Lite](#) site or on [Adobe Labs](#).

The following guide helps you to find and install the Adobe Flash Lite.

- a.) Go to [Adobe Flash Lite](#) site
- b.) Find your device type (Nokia, Windows Mobile, etc.)
